

IAN SLADE ASHIVENDE

Design Lecturer and consultant

- Interior Design.
- Fashion Design
- Textiles Design.

PERSONAL STATEMENT

“An academically astute designer offering versatile skills in the fields of Interior design, fashion and textiles design.”

I am a design lecturer and consultant with in depth knowledge in application of design elements and principles. The practical and academic experience I have gathered has given me proven ability in design research and handling design projects.

I am also a strong planner and enthusiastic problem solver who readily adapts to change, works with minimal supervision while exceeding expectations. I meet design projects deadlines without compromising on quality.

I am particularly good in using various computer multi-media design softwares thus can deliver excellent design presentations.

I am an ambivert with good interpersonal communication exposure. My strong background in art and design gives me a creative outlook on how I work around challenges.

Why don't we work together?
